Hi Forrest and Carl,

Victory at last! You can just print this email and take it along with you if you want to go collecting right away :)

Let me know if you have any questions,

Sonia

Sonia,
I am out of the office until Tuesday....you can proceed with your Research...print this email until I get you the actual permit if you would like to get started.
Laurie

Hi Laurie,

I understand this was finally paid today. What a saga. Reaching out to find out what I can do to help you with the next steps. Having had to wait 6 weeks for our Purchasing department to pay this small fee is proving detrimental to our research as the weather is warming up fast and our field work window is closing. I apologize for the urgency that this is now causing for the next steps, but I am ready to help with whatever you need to make sure we don't lose a year of research time by missing our window this year. I have already alerted both the offices of Real Estate and Risk Services to watch for this permit and any communications from you and to expedite the next steps to complete the process. Please let me know what else could be helpful.

Best,

Sonia

Please either call me with a credit card (if I am not in the office you can call my cell at 415-328-2585 as I am mostly working remotely from home) or send a check to MMWD to my attention at SKY OAKS to the address below.

Thank you,
Laurie

Dear Laurie,

Good morning! I am a staff member at UC Berkeley, helping graduate student Forrest Freund and Professor Rothfels with a payment they need to submit to you to cover their permit fee. I can see that the Marin Municipal Water District is in UCB's vendor system, so it appears that paying this fee by a purchase order or a University credit card could be an option? Could you please confirm what forms of payment you would accept for this permit fee?

Thank you,

Sonia
